About Me

Versatile and results-driven Full Stack Developer specializing in the MERN stack (MongoDB, Express.js, React.js, and Node.js), with a strong passion for building end-to-end web applications that are scalable, responsive, and user-centric. Skilled in both frontend and backend technologies, with hands-on experience in creating dynamic UIs, developing secure RESTful APIs, and managing databases. Adept at working with modern tools, version control systems like Git, and deploying applications on cloud platforms. Committed to writing clean, maintainable code and continuously improving performance, usability, and user experience.
